

## Retraction

Retraction of: Muhammad Salman Khan, Afia Asif, Saed Khawaldeh and Ahmet Tekin. Dopamine detection using mercaptopropionic acid and cysteamine for electrodes surface modification. *Journal of Electrical Bioimpedance*. 9(1), 3-9, 2018. (DOI: 10.2478/joeb-2018-0002).

The reason for the retraction is misunderstanding and communication failure between the authors.
