Published books (selection): *On Regeneration and Degeneration of a Nation: Medical Discourses in Bucharest, 1872-1912*, single editor (Bucharest, 2009), 2nd Edition: 2013, Bucharest; *National Identity and Social Medicine: Cultural Anthropology, Psychiatry, and Forensic Medicine in Romania: 1800-1945* (Bucharest, Romanian Academy, 2013). Selected chapters: Medical Enlightenment and Variolation from the Balkans to Romanian territories - to Western Europe, 1672-1802, in: C. Barbulescu and A. Ciupala (Eds): *Medicine Hygiene and Society from the 18th to the 20th centuries*, Ed. Mega, Cluj Napoca, 2011; Historical Aspects of Legal Medicine in Romania in: B. Madea (ed.): *History of Forensic Medicine*, Lehmanns Media, Berlin 2017.

**Mihaela Constantinescu** is a researcher at the Research Centre in Applied Ethics, Faculty of Philosophy, University of Bucharest, Romania. She obtained her PhD in 2013 at the University of Bucharest, with a thesis on “The Moral Responsibility of Organisations”, partly documented at the Rotterdam School of Management, Erasmus University. Her research interests include organizational ethics, virtue ethics, and corporate responsibility. Mihaela co-authored the Romanian volume *Institutionalising Ethics: Mechanisms and Instruments* and is author and co-author of articles published in international volumes and scientific journals such as the “Journal of Business Ethics”. With an academic background in both philosophy and communication, Mihaela has worked as a public relations consultant in the private, nongovernmental and public sector, while offering ethics counselling to the latter.

**Eva De Clercq** has been working as a postdoctoral researcher at the Institute for Biomedical Ethics of the University of Basel (Switzerland) since September 2013. She obtained her PhD in Philosophy from the Catholic University of Leuven (Belgium) and of the University of Pisa (Italy) in 2010. She has a master in social and cultural anthropology of the Catholic University of Leuven (Belgium) and a master in cultural communication of the University of Florence (Italy). Her research interests and expertise include: pediatric palliative care, capacity and decision-making; vulnerability, embodiment and lived-experience and gender related issues. She has published more than 20 peer-reviewed manuscripts in the field of philosophy, bioethics and gender studies. She has published her PhD thesis for the Academic

Publisher Palgrave Macmillan in 2013. She is a lecturer in philosophy and department supervisor at the University Istituto Internazionale Lorenzo de' Medici, Florence (Italy) since 2011.

**Bernice Elger** is head of the Institute for Biomedical Ethics at the University of Basel and associate professor at the Center for Legal Medicine at the University of Geneva where she is head of the Unit for Health Law and Humanitarian Medicine. She studied medicine and theology in Germany, France, Switzerland and the US and obtained her specialty degree in internal medicine (FMH) in Switzerland. As part of her work at the Center for Legal Medicine at the University of Geneva, she has worked in prison medicine for 15 years. She has been member of the advisory committee of the Chernobyl Biobank for many years and wrote her habilitation thesis on ethical and legal issues of biobanks.

**Victoria Federiuc** is a doctoral researcher of the State University of Medicine and Pharmacy „Nicolae Testemițanu”, Republic of Moldova. She holds a Pharm. D and MA in Medical ethics and Bioethics from the same university. Her main research topics are pharmaceutical ethics and the ethics of the innovative medical technologies. Victoria is also a teaching assistant at the Department of Philosophy and Bioethics. Other research interests include palliative care, philosophy of medicine and behavioural sciences.

**Mihaela Frunză** is Associate Professor at the Department of Philosophy, Faculty of History and Philosophy, Babeş-Bolyai University, Cluj-Napoca, Romania. Her research interests include biomedical ethics, philosophy of communication and philosophy for children. She teaches courses in ethics, applied ethics, and philosophy of communication. She has published four books and more than 40 articles in specialized journals.

**Sandu Frunză** has a PhD in Philosophy of Culture, Values and History. He is PhD coordinator in the field of political sciences. His fields of interests are: deontology, relational ethics, philosophy of religions, Post-Holocaust philosophy, religious fundamentalism, political communication, personal development and ethical counselling. He is editor of the Journal for the Study of Religions and Ideologies. He has recently authored the following books: *Advertising constructs reality. Religion and advertising in the consumer society* (Tritonic, 2014), *Publicitatea și administrația publică sub presiunea eticii* (Lumen, 2015), *Între moartea politicii și moartea lui Dumnezeu* (Eikon, 2017). He also performs philosophical (existential) counselling. His blog address is <https://frunzasandu.wordpress.com/>

**Iulia Grad** is teaching assistant at the Department of Communication, PR and Advertising, Faculty of Political, Administrative and Communication Sciences,

Babeş-Bolyai University, Cluj-Napoca, Romania. She obtained her PhD in philosophy in 2012, with a thesis on Martin Buber. Her interest areas are communication ethics, communication philosophy and media communication. The courses and seminars she teaches are: ethics in PR and advertising, advertising, religion, ideology and strategies of dialogue.

**Ovidiu Grad** is teaching assistant at Iuliu Hațieganu University of Medicine and Pharmacy, Cluj-Napoca, where he teaches surgical semiology. He is also a vascular and general surgeon. Since 2013, Ovidiu Grad is medical doctor, the title of his PhD thesis being “Therapeutic angiogenesis with stem cells in critical lower limb ischemia”.

**Christopher Gyngell** is a Marie Skłodowska-Curie Fellow with the Uehiro Centre for Practical Ethics. His research interests lie primarily in bioethics, moral theory, and the philosophy of health and disease. He is currently working on a Marie Skłodowska-Curie Fellowship funded project titled “Selecting, Creating and Modifying Embryos”, which will investigate the ethical and legal implications of new reproductive technologies, such as the gene editing technique CRISPR.

**Sophie Haesen** has a background in Medicine and Epidemiology (M. Sc. from the Swiss Tropical and Public Health Institute/University of Basel). Among others, she participated at “Ecohealth 2014” in Montreal, “Paratrop 2014” in Zurich, the “63rd Annual Meeting of the American Society of Tropical Medicine and Hygiene” in New Orleans and “Environment and Health” in Basel presenting research projects on synergies resulting from joint human, animal and plant health services and on estimating the disease burden of noma (cancrum oris). Sophie is currently a PhD candidate at the Institute of Biomedical Ethics, University of Basel, Switzerland. Her research project, which is funded by the Swiss National Foundation, focuses on the mental health of older prisoners in Switzerland. Other research interests include general prison health as well as questions of autonomy in Public Health and around the end of life.

**Marcello Ienca** is research fellow at the Health Ethics & Policy Lab, Department of Health Sciences and Technology at ETH Zurich, Switzerland. His research focuses on the ethics and governance of biomedical data, ethically aligned artificial intelligence (AI) and responsible innovation for emerging technologies at the human-machine interface. Prior to joining ETH, Dr. Ienca has obtained MSc, MA and PhD degrees from the Humboldt University of Berlin, KU Leuven (Erasmus Mundus Consortium) and the University of Basel. He has published extensively on the ELSI of neurotechnology and AI, big data trends in biomedicine, ethical design in robotics, data ethics, dual-use, digital health and cognitive assistance for people with intellectual disabilities. He has advocated the development of neuro-specific rights for the era of neurotechnology and big data. Ienca has received several awards for social responsibility in science and

technology such as the Prize Pato de Carvalho (Portugal) and the Paul Schotsmans Prize from the European Association of Centres of Medical Ethics (EACME). He has authored +20 scientific articles in peer-review journals, several book chapters and is a frequent contributor to *Scientific American*. Ienca is a representative to the board of the International Neuroethics Society and the coordinator of the Swiss Network of Neuroscience, Ethics and Law (SNNEL).

**Cristian Iftode** (born in 1979) is Associate Professor at the Faculty of Philosophy, University of Bucharest. His published books and edited volumes in Romanian include: *Critique, Marginality, Cynicism* (co-edited with C. Voinea, University of Bucharest Publishing House, 2017); *Aristotle: The Problem of Analogy and the Philosophy of Donation* (University of Bucharest Publishing House, 2015); *Philosophy as a Way of Life: Sources of Authenticity* (Paralela 45, 2010). He is also the author of an important number of academic studies published in Romanian, English and French, dealing with topics in the history of philosophical ideas, ethics and social philosophy, aesthetics, and French post-structuralism. Contact: cristian.iftode@filosofie.unibuc.ro.

**Blanca Rodríguez López** is Associate professor of moral and political philosophy at the Complutense University of Madrid. At the beginning of her career she worked on utilitarianism, rational choice theory and game theory. Later she worked on liberalism and social norms and in the last few years she has focused on bioethics and human enhancement. Her work is currently focused on moral enhancement, and its relation with cognitive and mood enhancement. She also works on experimental ethics.

**Emilian Mihailov** is the Executive Director of the Research Centre in Applied Ethics (CCEA) and Lecturer at the Faculty of Philosophy, University of Bucharest. He was a postdoctoral fellow of the Romanian Academy, Iasi Branch, and visiting researcher at Oxford Uehiro Centre for Practical Ethics, University of Oxford. Among Emilian's research interests are neuroethics, moral psychology, Kantian ethics, analytic moral philosophy, applied ethics, and the evolution of morality. Currently he is working on the implications of experimental moral psychology and neuroscience for normative and applied ethics. His book, *The Architectonics of Morality* (Paralela 45 Publishing House 2017), develops a criticist reconstruction of Kantian ethics.

**Bogdan Olaru** has studied philosophy in Iași (Romania) and Berlin, and graduated psychology at University of Göttingen (Germany). His primary areas of interest include moral philosophy and moral psychology, social justice, bioethics, and phenomenology. His most recent publications address issues related to responsibility and social justice. He edited the anthologies *Autonomy, Responsibility, and Health Care: Critical Reflections* (Bucharest, 2008) and *Contributions to Moral Psychology: Evaluating Results and New Empirical Research* (Bucharest, 2015, with Andrei

Holman), and published *Changing one's Moral Luck: The Effect of Restitution on Moral Judgments* (AV Akademikerverlag, 2012).

**Adriana Paladi** is an Associated professor at the Philosophy and Bioethics Department of the State University of Medicine and Pharmacy “N. Testemitanu” (Republic of Moldova), and the expert member of National Ethics Committee for clinical research of drugs and new methods of treatment. Her current work lies at the intersection of ethical theory and practice, with a particular focus the value of the informed consent in biomedical research, the exploration of the moral conditions for carrying out a biomedical research without an informed consent, the determination of the ethical problems of medical research on vulnerable populations, ethical issues in end of life care, suffering in end of life care, psychological and spiritual assistance of dying etc.

**Milenko Rakic** is PhD candidate at the Institute of Biomedical Ethics, University of Basel, Switzerland, with a background in Medicine and Biomedical Sciences (M. Sc. from the University of Bern, 2014). Milenko's research project focuses on self-determination of palliative care patients and is funded by the Swiss Academy of Medical Sciences. His research interests include patients' self-determination in palliative care as well as in clinical trials with cutting edge biotechnology. He was trained in both qualitative and quantitative research. Additionally, he is doing a Master in Health Promotion at the Swiss Distance University of Applied Sciences, Switzerland.

**Daniela Rusnac** is teaching assistant at the Department of Philosophy and Bioethics at State University of Medicine and Pharmacy „Nicolae Testemițanu”, Chisinau, Republic of Moldova. Daniela is a graduate in philosophy and holds a MA degree in Philosophy. Her research area includes ethical aspects of biotechnology, human enhancement, ethical and humanitarian expertise.

**Laurențiu Staicu** is Professor at the Faculty of Philosophy, University of Bucharest, where he teaches Metaphysics, Philosophy of Biology and Ethics of Science. His most recent book, *Three Metaphysical Histories for Insomniacs* (Trei Publishing House, Bucharest, 2017), addresses a number of classical metaphysical puzzles from the Western tradition - personal identity, the reality of the external world, the nature of existence – and tries to offer a fresh perspective over these issues by making a strong connection between traditional philosophical perspectives and their contemporary scientific counterparts.

**Constantin Vică** is Assistant Professor at the Faculty of Philosophy and researcher at the Research Centre in Applied Ethics, University of Bucharest. His main academic interest are computer and information ethics, roboethics, philosophy of computer science, social and political philosophy, and the critique of intellectual property.

He published several articles and studies on information and ownership, intelligent assistive technologies, online trust, web search engines ethics, digital dialectics, pirate politics, evolution of programming languages, and free software, authorship and intellectual property. Some recent publications: “Kynics and cynics within the political game of information” (with Cristina Voinea, in *Critică, marginalitate, cinism*, 2016), “Space and Time in the Networked Digital World. A Kantian Critical Examination” (*Revista de filosofie*, 2016), and “Life and Ownership: Intellectual Property limits, from Genes to Synthetic Biology” (in *Ethics in Biology, Engineering and Medicine*, 2015). He also co-edited one book: *Filosofia științelor umane. In memoriam Mihail Radu Solcan* (2015, University of Bucharest Press). Contact: constantin.vica@filosofie.unibuc.ro.

**Tenzin Wangmo** is a Senior Researcher at the Institute for Biomedical Ethics at the University of Basel. She completed her doctoral education in Gerontology (United States) and habilitation in medical ethics (Switzerland). Her research works for the last ten years have encompassed topics such as older prisoners, end-of-life, elder abuse, and intergenerational relationships. Currently, her bioethics research includes technology and aging, empirical bioethics, healthcare data sharing, and older prisoners’ rights and access to healthcare.

**Isabelle Wienand** is a postdoctoral researcher at the Institute for Biomedical Ethics at the University of Basel. She studied philosophy and German literature at the Sorbonne University Paris-IV. Her area of research is modern moral philosophy – particularly Descartes and Nietzsche –and more recently, ethics and philosophy of medicine.
