Foreword — IX

Christopher Gyngell

- 1 Good Parents and New Reproductive Technologies — 1**
- 1.1 Introduction — 1
- 1.2 Use of RGTs — 2
- 1.2.1 IVF and PGD as tools — 2
- 1.2.2 Gamete screening — 3
- 1.2.3 Genetic engineering — 3
- 1.2.4 *In vitro* gametogenesis — 5
- 1.3 Should parents influence the genes of their children? — 5
- 1.4 Does the method matter? — 7
- 1.5 Conclusion — 8
- References — 9

Bogdan Olaru

- 2 Bypassing Morality Through Conventional and Unconventional Forms of Moral Enhancement — 11**
- 2.1 The argument emanating from similarity — 11
- 2.2 Selecting for particular ways of reasoning, disruptions of one’s narrative identity, and freedom from any mental manipulations — 14
- 2.3 Fundamental similarity between conventional and nonconventional moral enhancement — 16
- 2.4 The constraint of moral equality between the enhancer and the enhanced person — 18
- References — 22

Marcello Lenca

- 3 The Neuroenhancement Continuum and the Minimal Rule — 23**
- 3.1 Introduction — 23
- 3.2 Nootropics and the origin of human neuroenhancement — 24
- 3.3 The neuroenhancement continuum: nootropics and other enhancers — 26
- 3.4 The neuroenhancement continuum II: cognition and other systems — 27
- 3.5 A minimal rule for the administration of neuroenhancers: MiRNA — 29
- 3.6 Application of the MiRNA — 30
- 3.7 Safety, self-determination, equality, and information — 32

3.8	Conclusion — 33
	References — 35

Blanca Rodríguez López

4	Procreative Beneficence: is Selection Really Better Than Genetic Modification? — 37
4.1	Introduction — 37
4.2	Some considerations on the PPB — 38
4.2.1	Definition of enhancement — 38
4.2.2	The best life — 38
4.3	Selection — 39
4.3.1	Two (unconvincing) explicit reasons — 40
4.3.2	One (unconvincing) implicit reason? — 41
4.3.3	The real (explicit) reason — 42
4.4	PPB and the nonidentity problem — 43
4.5	Why selection is not morally superior — 44
4.6	Conclusion: a defense for an extension of PPB — 46
	References — 47

Daniela Rusnac

5	Practical Ethics Issues in Gene Therapy and Genetic Testing — 49
5.1	Introduction — 49
5.2	Genetic testing — 49
5.3	Gene therapy — 53
5.3.1	Basic and preclinical research — 55
5.3.2	Clinical use: somatic — 55
5.3.3	Clinical use: germ line — 55
5.4	Conclusion — 56
	References — 56

Emilian Mihailov

6	Refocusing the Nudge Debate on Organ Donation — 58
6.1	Introduction — 58
6.2	The success of opt-out systems — 59
6.3	Tempering the opt-out enthusiasm — 61
6.4	Opt-out policy and consent standards — 64
6.5	Beyond the dichotomy of presumed and explicit consent — 66
6.6	Nudging beyond potential donors — 68
6.7	Conclusion — 69
	References — 69

Mihaela Frunză, Iulia Grad, Sandu Frunză, Ovidiu Grad

7 [CLICK HERE! To Find More About Organ Transplantation: Ethical Aspects of Media Stories on Organ Donation from Romanian Newspapers](#) — 72

- 7.1 Introduction — 72
- 7.2 Sensational stories on organ donation in the Romanian paper-based media (2008–2012) — 74
- 7.3 “Look, mom, now I’ve got hands!” Unlikely stories of transplantation from recent Romanian periodicals — 75
- 7.4 From mutual ignorance to mutual partnerships: students’ campaigns promoting organ donation — 81
- 7.5 Conclusions — 81
References — 82

Mihaela Constantinescu

8 [Seeing the Forest Beyond the Trees: A Holistic Approach to Health-Care Organizational Ethics](#) — 86

- 8.1 Introduction — 86
- 8.2 Organizational ethics in health care — 87
- 8.3 Compliance versus integrity: an apparent dichotomy — 88
- 8.4 Embedding ethics in HCOs: optimal alignment between culture and structure — 91
- 8.5 Conclusion and suggestions for future research — 92
References — 94

Eva De Clercq

9 [Disability @ the Movies: Toward a Disability-Conscious Bioethics](#) — 97

- 9.1 Introduction — 97
- 9.2 What *can* a body *do*? — 99
- 9.3 Moral imagination at the movies — 100
- 9.4 Disability stereotypes on the silver screen — 102
- 9.5 Disability in contemporary cinema: from isolation to inclusion? — 103
- 9.6 Conclusion: the power of re-signification — 105
References — 106

Constantin Vică

10 [The Info-Computational Turn in Bioethics](#) — 108

- 10.1 All watched over by machines of loving grace? — 108
- 10.2 The digital epidemiology — 110
- 10.3 Ways of understanding the info-computational turn — 113
- 10.4 Conclusions — 116
References — 118

Adriana Paladi, Victoria Federiuc

- 11 The Principle of Autonomy in Palliative Care: the Moldavian Perspective — 121**
- 11.1 Introduction — 121
- 11.2 Principle of autonomy — 122
- 11.3 Moral requirement of patient information — 123
- 11.4 Some reasons for covering up bad news — 124
- 11.5 The case of the Republic of Moldova — 125
- 11.6 Delivering bad news in a sensitive manner — 128
- 11.7 Conclusion — 129
- References — 130

Laurențiu Staicu, Octavian Buda

- 12 Philosophical Foundations and The Role Of Counseling in The Ethics of Informed Consent — 132**
- 12.1 Introduction — 132
- 12.2 Informed consent as an expression of liberty — 133
- 12.3 Informed consent as an expression of morality — 136
- 12.4 A moral dilemma and its philosophical presuppositions — 139
- 12.5 Conclusions — 143
- References — 144

Cristian Iftode

- 13 Bioethics as Biopolitics: A Foucauldian Perspective — 145**
- 13.1 Introduction — 145
- 13.2 Madness, the asylum institution, and the psychiatric power — 146
- 13.3 Biopolitics as “power’s hold over life”: the three levels of an analysis of “normalization” — 148
- 13.4 In search of a new “ethics of life”: ethical subjectivation vs. political subjection — 154
- 13.5 Final remarks — 157
- References — 158

Isabelle Wienand, Milenko Rakic, Sophie Haesen, Bernice Elger

- 14 How Should One Die? Nietzsche’s Contribution to the Issue of Suicide in Medical Ethics — 160**
- 14.1 Introduction — 160
- 14.2 The hermeneutic challenge of HTH §185 — 162
- 14.3 The religious interpretation of suicide — 165
- 14.4 Conclusion — 167
- References — 167
