Retraction of six papers from the Romanian Journal of Internal Medicine

The Editorial Board of the Romanian Journal of Internal Medicine is retracting the following articles:

The Editorial Board received warnings regarding the suspicion of plagiarism for all these articles. After an internal inquiry by editors of the journal it was concluded that indeed all these articles were plagiarized, with high similarity index. E-mails were sent to the corresponding authors acknowledging the scientific misconduct and the decision. The Editorial Board of the Romanian Journal of Internal Medicine decided to retract all the above mentioned articles.
