1. Is the argumentation in the manuscript logical and coherent? Is the paper well-referenced to support its points? Does it draw on relevant sources?

2. Is it original work, and how does it articulate with current research in relevant fields?

3. Is the manuscript well written?

4. Is the manuscript technically sound?

5. Are the references correctly formatted?

6. Please feel free to address any other points you think are relevant.
