

The EuroBiotech Journal's mission is to give scientists a chance to disseminate their findings in Europe and globally and make available scientific data free of charge for researchers. The EuroBiotech Journal also seeks to make accessible selected valuable studies which were presented in annually held European Biotechnology Congresses in the different countries of Europe by EBTNA for the benefit of scientists who could not attend these congresses in person.

1.3 Review process:

1. First Review (Editorial Secretary)
2. Second Review (Editor-in-Chief) (reject, revision or evaluation)
3. Plagiarism check
4. Third Review (Editor specialized in field)
5. Possible Review by two or more reviewers suggested by author
6. Revisions (if needed)
7. Assignment of DOI number
8. Publication

1.4 Conflict of interest policy: The EuroBiotech Journal will expect potential authors, reviewers or editors to declare any material conflicts of interest and to ensure the highest standards of behavior at all stages of the publication process.
