When reviewing the MS please consider following questions

(you will be able to answer these questions directly in the Reviewer menu):

Does the title inform about the findings or implications of this paper?

Is the abstract informative and concise enough for a general audience?

Are the objectives of this manuscript clearly stated in Introduction?

Are the methods appropriate and clearly explained?

Are the interpretations justified?

Are all figures and tables readable and of sufficiently high quality and is the map with the study area included?

Do you think that this manuscript can be shorter or the number of figure or tables can be smaller?

Do the authors refer to the previous papers sufficiently?

Is the reference list complete?

Please briefly explain (in one or two sentences):

Why is this paper of general interest?

Why are the results and interpretations of this paper noteworthy?
