Figures, tables and diagrams

The figures, tables and diagrams will be numbered and sent separately in *.jpg or *.tif format of at least 300 dpi, with clear specification where to be inserted in the text. Colours must be converted to grayscale, ensuring that any resulting nuances of black are distinguishable from each other.

Permission

The author is responsible for securing permission to reproduce all copyrighted figures or materials for printing in SCR before they are published. A copy of the written permission must be included with the manuscript submission.

Footnotes

We recommend the use of footnotes only where this can not be avoided. For footnotes use Times New Roman font, 10 pt, single-spaced.

Citations & References/ Bibliography

The citations & references/bibliography should be listed according to a version of the Chicago Manual of Style, in-text citation (T), Author-Date Style.

Review process

Each full-text article will be independently reviewed by two reviewers. The reviewers will be blinded with respect to the name and the affiliations of the author(s). The reviewed manuscript is returned back to the corresponding author with comments and recommended revisions, in approximately one month from the submission date. Name and individual decisions of the referees are not transmitted to the author. Three repeated decisions of 'review after revision' are regarded as 'rejection'. A final decision on acceptance for publication is transmitted to the author by the Editorial Board.

The journal does not have article processing charges (APCs) nor article submission charges.
