The title page should include the title, complete names of the authors and their affiliations, including the e-mail address and the key words. An list of used references and eventually an acknowledgement should be placed at the end of the article.

- **Tables** should be run in the text, numbered consecutively in Arabic numerals and provided with an appropriate caption.

- **Illustrations** should be run in the text, numbered consecutively in Arabic numerals, according to their sequence in the text. The illustrations have to be sent in electronic form, preferably in PostScript format. All illustrations (with the exception of photographs, naturally raster graphics), should be in vector format to retain their quality in case of zooming. It is important particularly in case of pictures, composed of linear graphic items, as graphs and schemes. It is necessary to use the text font of suitable size, bearing in mind, that all graphics items should be fitted into area of 17.3 × 12.5 cm, the captions including. The printed version of journal is pressed in shades of gray, the online version, issued simultaneously, allows using of color pictures. The raster pictures of low quality (resolution under 300 dpi) will be rejected.

  "... as shown by Bielik et al. (1996) ...
  "... discussed in Boberg et al. (2000) and Stacey and Banerjee (1974) ...
  "... as proved earlier (Poháňka, 2001; Brimich and Latynina, 1988)"

The following system should be used in the list of references:

Authors should pay attention to consistency of the works cited in the manuscript and works listed in the References part, the works listed in the conclusive register should be cited in the manuscript text and vice versa.
