Author Guidelines

Submission Preparation Checklist

As part of the submission process, authors are required to check off their submission's compliance with all of the following items, and submissions may be returned to authors that do not adhere to these guidelines.

1. The submission has not been previously published, nor is it before another journal for consideration (or an explanation has been provided in Comments to the Editor).

2. According with this, each manuscript must be submitted along with a certification on the part of the author that the scientific contribution represents the author(s) original work and has not been copyrighted anywhere else, document which can be downloaded [here](#).

3. The submission file is in Microsoft Word file format.

4. Where available, URLs for the references have been provided.

5. The text adheres to the stylistic and bibliographic requirements outlined in the Author Guidelines.

Copyright Notice

Submission of an article implies that the work described has not been published previously (except in the form of an abstract or as part of a published lecture or academic thesis), that it is not under consideration for publication elsewhere, that its publication is approved by all authors and tacitly or explicitly by the responsible authorities where the work was carried out, and that, if accepted, will not be published elsewhere in the same form, in English or in any other language, without the written consent of the Publisher. The Editors reserve the right to edit or otherwise alter all contributions, but authors will receive proofs for approval before publication.

Copyrights for articles published in JAES are retained by the authors, with first publication rights granted to the journal. The journal/publisher is not responsible for subsequent uses of the work. It is the author's responsibility to bring an infringement action if so desired by the author. In this scope any author will sign a solemn and authenticity statement.

GENERAL

Language

Please write your text in good English (American or British usage is accepted, but not a mixture of these). To avoid unnecessary errors you are strongly advised to use the "spell-check" and "grammar-check" functions of your word processor.

Length of paper

6-8 pages (3000 words) are preferred.

Title

Must be concise and informative, because titles are often used in information-retrieval systems. If it is possible avoid abbreviations and formulae.

Author names and affiliations

Where the family name may be ambiguous (e.g., a double name), please indicate this clearly. Present the authors' affiliation addresses (where the actual work was done) below the names. Indicate all affiliations with a lower-case superscript letter immediately after the address's name and in front of the appropriate address. Provide the full postal address of each affiliation, including the country name and, if available, the e-mail address of corresponding address. It's necessary to indicate separately the affiliation and e-mail address of the other authors for the Index Authors section.
**Corresponding address**
Clearly indicate who will handle correspondence at all stages of refereeing and publication, also post-publication. Ensure that telephone and fax numbers (with country and area code) are provided in addition to the e-mail address and the complete postal address. Contact details must be kept up to date by the corresponding address.

**GENERAL RULES FOR TEXT**

Please use the following rules for whole text, including abstract, keywords, heading and references. Full and complete structure of your paper, please go to [http://www.arhiconoradea.ro/JAES/HOME.htm](http://www.arhiconoradea.ro/JAES/HOME.htm), the Author Guidelines buttons (Template). You are urged to visit this site; some excerpts from the detailed information are given here.

**Abstract**
Is required a concise and factual abstract. The abstract should state briefly the purpose of the research, the principal results and major conclusions.

**Keywords**
Immediatly after the abstract, provide a maximum of 6 keywords, using British spelling and avoiding general and plural terms and multiple concepts (avoid, for example, "and", "of"). Be sparing with abbreviations: only abbreviations firmly established in the field may be eligible. These keywords will be used for indexing purposes.

**Abbreviations**
Define abbreviations that are not standard in this field in a footnote to be placed on the first page of the article. Such abbreviations that are unavoidable in the abstract must be defined at their first mention there, as well as in the footnote. Ensure consistency of abbreviations throughout the article.

**INTRODUCTION**
State the objectives of the work and provide an adequate background, avoiding a detailed literature survey or a summary of the results.

**MATERIALS AND METHODS**
Provide sufficient detail to allow the work to be reproduced. Methods already published should be indicated by a reference: only relevant modifications should be described.

**RESULTS**
Results should be clear and concise.

**DISCUSSION**
This should explore the significance of the results of the work, not repeat them. A combined RESULTS and DISCUSSION section is often appropriate. Avoid extensive citations and discussion of published literature.

**CONCLUSIONS**
The main conclusions of the study may be presented in a short Conclusions section, which may stand alone or form a subsection of a DISCUSSION or RESULTS AND DISCUSSION section.

**References:** Citation in text:
Please ensure that every reference cited in the text is also present in the reference list (and vice versa). Any references cited in the abstract must be given in full, otherwise at the
Abstract section citation is forbidden. Unpublished results and personal communications are not recommended in the reference list, but may be mentioned in the text. If these references are included in the reference list they should follow the standard reference style of the journal and should include a substitution of the publication date with either “Unpublished results” or “Personal communication”. Citation of a reference as “in press” implies that the item has been accepted for publication.

DOIs in References
The journal/publisher encourages authors to cite those items (journal articles, conference proceedings, book chapters, technical reports, working papers, dissertations, etc.) that have DOIs. When the cited items have DOIs, the authors should add DOI persistent links to the regular references. The DOI persistent links should be the last elements in the references. The persistent links should be active.

- Format of persistent link: http://dx.doi.org/+DOI (without “doi:”)
- Example of persistent link: http://dx.doi.org/10.1109/2.901164

Acknowledgements
Collate acknowledgements in a separate section at the end of the article before the references and do not, therefore, include them on the title page, as a footnote to the title or otherwise. List here those individuals who provided help during the research (e.g., providing language help, writing assistance or proof reading the article, etc.). Those who are at the doctoral training stage and published some results of their next Ph.D. thesis in JAES could be made referee about it in this section. Also, if the research is sponsored or supported by an organization, please indicate it.

Note:
- a). Please present the Tables and Figures immediately after its was cited in text.
- b). Please avoid using footnotes. Change footnotes to endnotes. Insert "(Note 1, Note 2)" in normal text, and explain the note after References.

Author Fees
JAES charges the following author fees: Article Publication Fee - JAES: 80 euros. It fee covers publication costs and also national/international transport costs.

If the paper is accepted for publication, you will be asked to pay an Article Publication Fee. Payment account: ASOCIATIA ARHICON TOP; IBAN: RO48RNCB0661112825850001 B.C.R., SUC. ORADEA; CIF: 26148516.

Waiver policy is not applicable.
