

## GUIDE FOR AUTHORS ON SUBMISSION OF MANUSCRIPTS

A digital version of the Manuscript addressed:

Professor Witold Waclawek  
Editor-in-Chief  
*Ecological Chemistry and Engineering S/  
Chemia i Inżynieria Ekologiczna S (ECE S)*

Uniwersytet Opolski  
ul. kard. B. Kominka 6, 45-032 Opole, Poland  
phone +48 77 401 60 42, fax +48 77 401 60 51  
email: [eces@o2.pl](mailto:eces@o2.pl), [maria.waclawek@o2.pl](mailto:maria.waclawek@o2.pl)

should be sent by email to the Editorial Office Secretariat - [mrajfur@o2.pl](mailto:mrajfur@o2.pl)

Manuscripts should be submitted in the **MS Word format** as a standard document (.doc).

The Editor assumes, that the Author submitting a paper for publication has been authorised to do that. It is understood that the paper submitted to be original and unpublished work, and is not being considered for publication by another journal. The main responsibility for those statements bears the Corresponding Author.

After printing, the copyright of the paper is transferred to *Society for Ecological Chemistry and Engineering (Towarzystwo Chemii i Inżynierii Ekologicznej)*.

In preparation of the manuscript please follow the general outline of papers published in the most recent issues of *ECE S* (published on this website). Papers submitted are supposed to be written in English and should include the title, an abstract and keywords in English as well as in Polish languages.

The first page should include the Author's (Authors') given name(s), their affiliations, phone and fax numbers and their email addresses.

It is urged to follow the units recommended by the *Système Internationale d'Unites* (SI). Graph axis labels and table captions must include the quantity units.

Symbols recommended by the International Union of Pure and Applied Chemistry (Pure Appl Chem. 1979;51:1-41) are to be followed. Graphics (drawings, plots) should also be supplied in the form of digital vector-type files, eg CorelDraw, Excel, Inkscape or at least in a bitmap format (TIF, JPG). Tables should be numbered. They should have brief titles and column headings. The equations should be numbered in round brackets.

Authors should provide complete, correct and properly structured references. If the article/book has **DOI number**, the author should include it in the references. DOIs are easy to find. Most publishers, if they have them, place them at the top of the article front page. The DOI number makes it easy to find the paper.

All publications cited in the text should be presented in a list of References.

Journal titles should follow the Chem. Abstr. Service recommended abbreviations.

References cited chronologically should follow the examples given below:

- [1] Lowe DF, Oubre CL, Ward CH. Surfactants and Cosolvents for NAPL Remediation. A Technology Practices Manual. Boca Raton: Lewis Publishers; 1999.
- [2] Fasino CR, Carino M, Bombelli F. Oxidant profile of soy standardized extract. In: Rubin R, Stryger CS, editors. Joint Meeting 2001 - Book Abstracts 2001 Year of Natural Products Research. New York: Harper and Row; 2001.
- [3] Wosiński S. Effect of composition and processing conditions of ceramic and polymer composites on the electric field shielding ability [PhD Thesis]. Poznań: Poznan University of Technology; 2010.
- [4] Trapido M, Kulik N, Veressinina Y, Munter R. Water Sci Technol. 2009;60:1795-1801. DOI: 10.2166/wst.2009.585.
- [5] Cañizares P, Lobato J, Paz R, Rodrigo MA, Sáez C. Chemosphere. 2007;67:832-838. DOI: 10.1016/j.chemosphere.2006.10.064.
- [6] Hakala M, Nygård K, Manninen S, Huitari S, Buslaps T, Nilsson A, et al. J Chem Phys. 2006;125:084504-1-7. DOI: 10.1063/1.2273627.
- [7] Simeonov D, Spasov L, Simeonova P. Statistical calibration of model solution of analytes. Ecol Chem Eng S. Forthcoming 2013.

Please remember that every sign in the references counts.

Each publication is evaluated by at least two independent Reviewers from outside of the unit. In the case of paper written in a foreign language, at least one of Reviewers is affiliated to a foreign institution other than the Author's work.

As a rule *double-blind review process* is used (the Author(s) and Reviewers do not know their identities). In any case Editor must be sure that no conflict of interest (direct personal relationships, professional relationships, or direct scientific cooperation in the past two years) occurs between the Reviewer and the Author.

Reviewer has to fill in the Reviewers report. On its end must be an explicit request to the approval of the article for publication or its rejection.

Receipt of a paper submitted for publication will be acknowledged by email. If no acknowledgement has been received, please check it with the Editorial Office by email, fax, letter or phone.

In the case of any query please feel free to contact with the Editorial Office.
