INSTRUCTIONS TO THE AUTHORS OF THE
Bulletin: economics, organisation and informatics in healthcare

BULLETIN publishes articles based in the area of economics, organization and informatics in healthcare. Editorial board accepts only articles, that have not been and will not be published elsewhere. Parts of the article, summarized after other sources (especially illustrations and tables) should include the author’s and publisher’s permission to reproduce them in our Journal. The received article is submitted by the editorial board to the professional reviewer.

Manuscript
Send the manuscripts to the editorial e-mail: bitlen@famnit.upr.si. Manuscripts should be written in Word for Windows word processor. Contribution should be typed with double-spaced with margins of at least 25 mm. Scientific articles should be divided into following headings: Introduction, Methods, Results, Discussion and Conclusions. Other types of articles and review articles can be designed differently, but the division in headings and subheadings should be clearly evident from the size of characters in the titles. Headings and subheadings should be numbered decadally by standard SIST ISO 2145 and SIST ISO 690 (e. g. 1, 1.1, 1.1.1 etc.). Recommendable length for editorial is 250 to 700 words; for letter to the editor, report and book review 250 to 1250 words; for research article 2000 to 4500 words. Manuscript should be accompanied by an accompanying letter with the statement that the article has not yet been published or sent for publication to some other journal (this is not required for abstracts and reports from professional meetings), and that the manuscript has been read and approved by all the authors. Name, address, telephone number and e-mail address of the responsible author, who will be responsible for communication with the editors and other authors should be cited.

Title page
The title page should carry the Slovene and English title of the article, which should be short and concise, descriptive and not affirmative (statements are not allowed in the title). Names of authors with concise academic and professional degrees and full address of the department, institution or clinic where the work has been performed should be cited. Authors be should qualified for authorship. They should contribute to the conception and design resp. analysis and interpretation of data, they should intellectually draft resp. revise the article critically and approve the final version of the contribution. The collecting of data solely does not justify the authorship.

Abstract and Key Words
The second page should carry the abstract in Slovene and English. The abstract of the scientific article should be structured and of no more than 250 words, the abstracts of other articles should be unstructured and of no more than 150 words. The abstract should summarize the content and not only enumerate the essential parts of the work. Avoid abbreviations. Abstract should be written in third person. When the paper is written in English language, the abstract will be published in Slovene. The abstract of a scientific article should state the purpose of the investigation, basic procedures, main findings together with their statistical significance, and principal conclusions. 3 - 5 key words should be cited for the purpose of indexing.

References
Each mentioning of statements or findings by other authors should be supported by reference. References should be numbered consecutively in the same order in which they appear in the text. Reference should be cited at the end of the cited statement. References in text, illustrations and tables should be indicated by Arabic numerals in parentheses. References, cited only in tables or illustrations should be numbered in the same sequence as they will appear in the text. Avoid using abstracts and personal communications as references (the latter can be cited in the text). The list of the cited literature should be added at the end of the contribution. Literature should be cited according to the enclosed instructions that are in accord with those used by U. S. National Library of Medicine in Index Medicus. The titles of journals should be abbreviated according to the style used in Index Medicus (complete list on the URL address: http://www.nlm.nih.gov/tsd/serials/jii.html). List the names of all authors, if there are six authors or more, list first six authors than add et al.
Examples for literature citation:

example for a book:

**example for electronic sources:**

**Units of Measurement**

Should be in accordance with International System of Units (SI).

**Abbreviations**

Avoid abbreviations, with the exception of internationally valid signs for units of measurement. Avoid abbreviations in the title and abstract. The full term for which an abbreviation stands should precede its first use in the text, abbreviation used in further text should be cited in parentheses.

**Editorial work**

The received material is submitted by the editorial board to professional reviewer and reader (language editor). After this editorial procedure, the contribution is sent to the author for approval and consideration of corrections. The final copy is then again submitted to the editorial board. During the editorial procedure, the secrecy of the contribution content is guaranteed. Author receives in consideration also the first print, but at this stage corrigenda (printing errors) only are to be considered. Proofreadings should be returned in three days, otherwise it is considered that the author has no remarks.

When the manuscript is accepted for publication, the author assigns copyright ownership of the material to the University of Primorska, Faculty of Mathematics, Natural Sciences and Information Technology as the publisher. Any violation of the copyright will be legally persecuted.

Contributions are not remunerated. The author receives one copy of the issue in which the article is published.
