EDITORIAL POLICY

_BANTAO Journal_ is the official publication of the Balkan Cities Association of Nephrology, Dialysis, Transplantation and Artificial Organs. The journals publish articles relating to clinical or laboratory investigations of relevance to nephrology, dialysis or transplantation. Papers relating to basic immunology, anatomy and physiology are welcomed if these relate to the kidney. Rapid communications, case reports, technical reports and letters to the Editor are also considered. Letters to the Editor do not necessarily express the views of the Editor, and may or may not be peer-reviewed. All material is assumed to be submitted exclusively unless otherwise stated, and must not have been published previously except in abstract form. Manuscripts related to the topic of the submitted manuscript which are in preparation or submitted to other journals, must be sent in together with the manuscript destined for _BANTAO Journal_.

CONFLICT OF INTEREST DECLARATION AND UNIFORM REQUIREMENTS OF THE INTERNATIONAL COMMITTEE OF MEDICAL JOURNAL

All manuscripts must conform to the Uniform Requirements of the International Committee of Medical Journal Editors (ICMJE), which can be found on http://www.icmje.org. These requirements include: disclosure of conflicts of interest, protections of patients' right to privacy, and conducting human and animal experiments in accordance with ethical standards. All authors must disclose any potential conflict of interest which may affect their scientific judgment. Such conflicts of interest may be financial involvement, but may also be of different nature such as scientific competition, personal relationships or other. When disclosing conflicts of interest, sources of funding of the presented work must be declared. The corresponding author must include a Conflict of Interest Statement on behalf of all the authors at the end of the article. If no Conflict of Interest is declared this must be stated also. When reporting experiments on human subjects, authors should indicate whether the procedures followed were in accordance with the ethical standards of the responsible committee on human experimentation (institutional and national) and with the Helsinki Declaration of 1975, as revised in 2000. When reporting experiments on animals, authors should indicate whether the institutional and national guide for the care and use of laboratory animals was followed.
