Rules applicable to the review of publications in Journal of KONBIN based on the guidelines by the Ministry of Science and Higher Education

1. Two third party reviewers independent of the identity shall be appointed to review each publication.

2. The Journal uses a review model in which author(s) and reviewer(s) do not know their identities (the so-called ‘double-blind review process’).

3. The review shall be in written form, and it shall be concluded with an unambiguous recommendation as to the article being accepted for publication or it being rejected.

4. Rules applicable to acceptance for publication or rejection as well as any reviewer’s forms shall be made public on the Journal website.

5. Individual publication / issue reviewers’ last names shall not be disclosed; the Journal shall make public a list of collaborating reviewers once per year.
