

## Guidelines for Referees

The submissions to Annals of the West University of Timișoara – Mathematics and Computer Science (Analele Universității de Vest din Timișoara – Seria Matematică-Informatică) should be original and relevant in the fields of Mathematics and Computer Science. Each submission should be evaluated with respect to:

*Topic.* There are no specific restrictions concerning the topic of the submission as long as it belongs to Mathematics and Computer Science. However the submission should address problem which are relevant and of current interest for researchers in Mathematics and Computer Science.

*Methods and results.* The used methods should be clearly described and correctly applied. The results should be well motivated and correctly proved.

*Structure.* The submission should be well structured, ensuring a logical flow of ideas and/or reasoning. The previous results should be properly referred.

*Language.* The language should ensure a good understanding of the paper.

The referee should provide:

- One of the recommendations:
  - The paper can be accepted as it is
  - The paper can be accepted after minor revision
  - The paper could be accepted only after a major revision
  - The paper should be rejected
- Comments for the authors where the strong and weak points of the paper are clearly presented and suggestions for improving the quality of the paper are given.
- Confidential remarks for the editors (if it is necessary)
