EDITORIAL POLICY

The Journal TECHNOLOGICAL ENGINEERING is the official journal of Scientific-technical society by University of Zilina. It publishes reviewed articles, original scientific papers and professional contributions from all areas of mechanical engineering such as manufacturing technology and its mechanization, metrology methods and systems of quality etc. The Journal serves the interest of all professionals concerned with these areas. By design, the Journal is international and multidisciplinary in its approach, and the members of the Editorial Board take an active role in the Journal’s mission. Prospective authors are encouraged to consult with the editors and members of the Editorial Board with any inquiries.

Articles are not to be published previously and not being considered for publication elsewhere. Submission of a manuscript to the Journal gives the publisher the right to publish that paper if it is accepted, and the copyright of the manuscript becomes the property of the publisher.

Authors must ensure that their studies comply with appropriate institutional and national guidelines. Specifically, by submission of a manuscript, the authors are responsible for compliance with guidelines and regulations of the authors' institution and all appropriate governmental agencies. Authors are also requested to identify possible conflicts of interest, especially as it relates to commercial sponsorship or equity holdings.
