

Review Scheme

I. General evaluation

What is your opinion on the following statements (evaluate from 1 to 6, where 1 means "I totally disagree" and 6 means "I totally agree"):

- a) The results obtained in the paper are relevant and of interest.
- b) The paper is well organized.
- c) The proofs are correct.
- d) The language quality is good.

II. Detailed comments

III. Recommendation

Which is your final opinion about the publication?

- I recommend the publication.
- I recommend the publication with minor changes (and I do not need to see the paper again).
- I recommend the publication with minor changes (and I want to see the paper again).
- I recommend the publication with major changes (and the review of the new version is necessary).
- I recommend the rejection of the paper.

IV. Reviewer declaration

Declare (if you did not do it before) that there is no conflict of interests between you and the author(s).
