

Instructions for Authors

Articles submitted for publication must be written in English, and produced in (La)TeX. Simple example – `Author_Name.tex` – would be useful. The first page should contain the title, authors' names and addresses, full contact details of the corresponding author, the abstract, keywords, and 2010 MS classification numbers (<http://www.ams.org/mathscinet/msc/msc2010.html>).

Footnotes should be avoided if possible, but if they are included they should be brief, and numbered consecutively.

References must be as complete as possible and put in alphabetical order.
