Authorship and conflicts of interest statement

Manuscript title:

Authorship

All persons who meet authorship criteria are listed as authors and all authors certify that they have participated sufficiently in the work to take public responsibility for the content, including participation in the concept, design, analysis, writing, or revision of the manuscript. Each author certifies that this material has not been and will not be submitted to or published in any other publication. In the table below, indicate the specific contributions made by each authors. A check mark (x) must appear against the name of each author at least once in each of three categories below.

| Authors' Name | Category 1 | Category 2 | Category 3 | | |
|---------------|---------------------------------------|----------------------------|---|---|--|
| | <i>Conception and design of study</i> | <i>Acquisition of data</i> | <i>Data analysis and interpretation</i> | <i>Drafting of manuscript and critical revision</i> | <i>Approval of final version of manuscript</i> |

Acknowledgments

All person who have made substantial contribution to the work in the manuscript (e.g. technical help, writing and editing assistance), but who do not meet the criteria for authorship, are named in Acknowledgments and have given to the authors the written permission to be named. If you have not included an Acknowledgment in your manuscript, then that indicates that you have not received substantial contributions from non-authors.

Conflicts of interest

A conflict of interest occurs when individuals' objectivity is potentially compromised by a desire for financial gain, professional advancement or a successful outcome. Since it can be difficult to distinguish between an actual conflict of interest and a perceived conflict of interest, the Romanian Journal of Orthopaedic Surgery and Traumatology requires authors to disclose all and any potential conflicts of interest.

Section I

The authors whose name are listed below certify that they have NO affiliation with or involvement in any organization or entity with any financial interest (such as honoraria; educational grants; employment; consultancies etc.) and non-financial interest (such as professional or personal relationships, affiliations etc.) in the subject matter or materials discussed in the manuscript.
